

## Mystery of Clock – Tech Rider

Mystery of Clock is a musical and theatrical presentation with a variety of tech requirements. A [video of the full performance is available here](#) and a [teaser video is available here](#).

**Technical Director:** Denis Martin <denis.martin@utoronto.ca>

### Instruments, Stage, Props, Rigging

#### Provided by Venue

- Bass Drum
- 5-Octave Marimba
- Broom + Pale + Dust pan
- Piano Bench
- Chain motor hung center, 7' down-stage of the projector screen. Chain needs to be able to lower to the height of the stage. ~50lbs of weight will hang, and the chain will be swung from left to right across the width of the dance floor.
  - *If chain motor configuration is not possible, please reach out to the technical director.*

#### Provided by Artists

- Violin
- 2x Headphones + extensions
- Metal Pendulum/Funnel
- 3x 8KG Rice
- Paper and other materials
- Clay + bowl
- 20' x 20' White Rosco Dance Floor (4 pieces) + Tape for assembly

Note: During the piece, rice is dispensed onto the dance floor area by a swinging metal funnel.

### Sound

#### Provided by Venue

- Quadraphonic PA System (with subwoofer)
  - Channels (left, right, left surround, right surround)
- Console
  - 2mic inputs
  - 4 x 1/4" TRS Line inputs

#### Provided by Artists

- Two wireless Lav microphone systems
- Qlab Computer + Interface

### Video

#### Provided by Venue

- Projector with HDMI input 16:9 ratio
  - Control of project shutter remotely
- 20' wide screen mounted so that the bottom of the screen is just touching the floor
  - Need at least 25' of stage in front of the screen
  - *If mounting position is not possible, please reach out to the technical director*
- 16:9 Computer display with HDMI input

## Green Room

- Access to green room with sink

## Lights

### Provided by Venue

Channel	Lamp Type	Focus
